MARSAN
Single Service
SAF-T-POUCH SET

No. 100, Marsan Saf-T-Pouch Set is popular for in or out of hospital use. A lightweight, comfortable, plastic appliance; provides excellent protection while at work, at play, or in bed.

Slip-proof, leakproof bag with reinforcement gasket is easily changed by the patient anywhere. For added comfort and security, we suggest use of the Marsan Saf-T-Pouch adhesive Gasket No. 805.

No. 100, Special Hospital Set contains:

50 - Disposable, plastic Single Service Saf-T-Pouches,
1 - Adjustable Belt—1" wide—with "Snap-tite" jaws,
1 - Plastic reinforcement Gasket (State size — see below)

- Saf-T-Pouches and Gaskets are available in 5 sizes.
- Center openings are 1", 1½", 2", 2½" and 3" dia.
- Please state size when ordering original set No. 100, or replacement packages Marsan No. 110 or No. 115.

Replacement Items

No. 110, Regular refill package (100 pouches). *Please state size.*
No. 115, Plastic reinforcement Gasket. *Please state size.* Regular or Soft.
No. 120, Adjustable Belt—1" wide—with "Snap-tite" jaws.
No. 125, Belt, quick-drying, woven plastic, with "Snap-tite" jaws

NO. 100-K, SAF-T-POUCH HOSPITAL SET
with self-adhering Karaya Washers

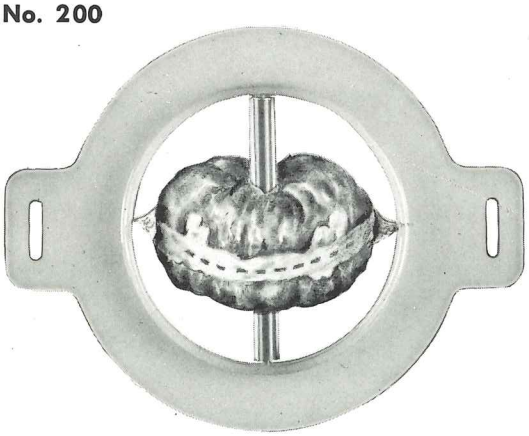
The Karaya Gum Washers are separate from the Saf-T-Pouch and remain on the body while the pouch is being changed. Prevents injury to the tender area around the stoma and eliminates the cost or need for replacing the washer each time the pouch is changed.

No. 100-K, Saf-T-Pouch Hospital Set contains:

50 - Disposable Single Service Saf-T-Pouches,
1 - Adjustable Belt—1" wide—with "Snap-tite" jaws,
1 - Plastic reinforcement Gasket,
4 - Karaya Gum Washers

Available in the following stoma sizes—1" (No. 328), or 1½", 2", 2½", 3" openings (No. 328L). State size when ordering.

No. 200



MARSAN LOOP-LOC* T.M.

A sterile loop colostomy appliance for immediate intraoperative application

An efficient, economical, and more esthetically acceptable method of handling fecal drainage in the immediate post-operative period.

No. 200, Marsan Loop-Loc Set contains:

15 - Disposable Saf-T-Pouches, 3" openings
1 - Adjustable Belt—1" wide—with "Snap-tite" jaws
1 - Plastic reinforcement Gasket 3" opening
1 - Rigid Plexiglas rod
1 - Vinyl tubing, 16" long

Replacement Items

No. 110, Saf-T-Pouch refills, 3" dia. (100 Pouches only)
No. 215, Reinforcement Gasket, 3" dia., with Plastic Rod
No. 120, Adjustable Belt—1" width—with "Snap-tite" jaws
No. 125, Belt, quick-drying, woven plastic, with "Snap-tite" jaws

*Trade Mark of Marsan Mfg. Co., Inc.

MARSAN Single Service Disposable
IRRIGATING SET

No. 500, the new Marsan Single Service Irrigator provides a simple sanitary method for the colostomy patient's daily irrigation. The patient can easily learn to irrigate himself on the toilet, or in bed, before leaving the hospital. Durable, compact and inexpensive disposable drainage tubes are easy to change;

No. 500, Marsan Disposable Single Service Irrigating Set contains:

25 - Disposable plastic Irrigating Tubes
1 - Adjustable Belt with "Snap-tite" jaws
1 - Plastic reinforcement Gasket, 3" opening
1 - Plastic Enema Bag
1 - Disposable plastic Glove
1 - Tube Irrigating Lubricant

No. 500-S, Marsan Disposable Single Service Irrigating Set contains:

Same as above except 2" opening in gasket.

Replacement Items

No. 510, Single Service Irrigating Tubes (50 per pkg.) 3" opening
No. 510-S, Single Service Irrigating Tubes (50 per pkg.) 2" opening
No. 511, Plastic Enema Bag
No. 512, Irrigating Lubricant (1 tube)
No. 513, Disposable plastic Glove (for dilating)
No. 515, Plastic reinforcement Gasket. Regular of Soft, 3" opening
No. 515-S, Plastic reinforcement Gasket. Regular or Soft, 2" opening

MARSAN "Klear Seal"
ADHESIVE DRAINS

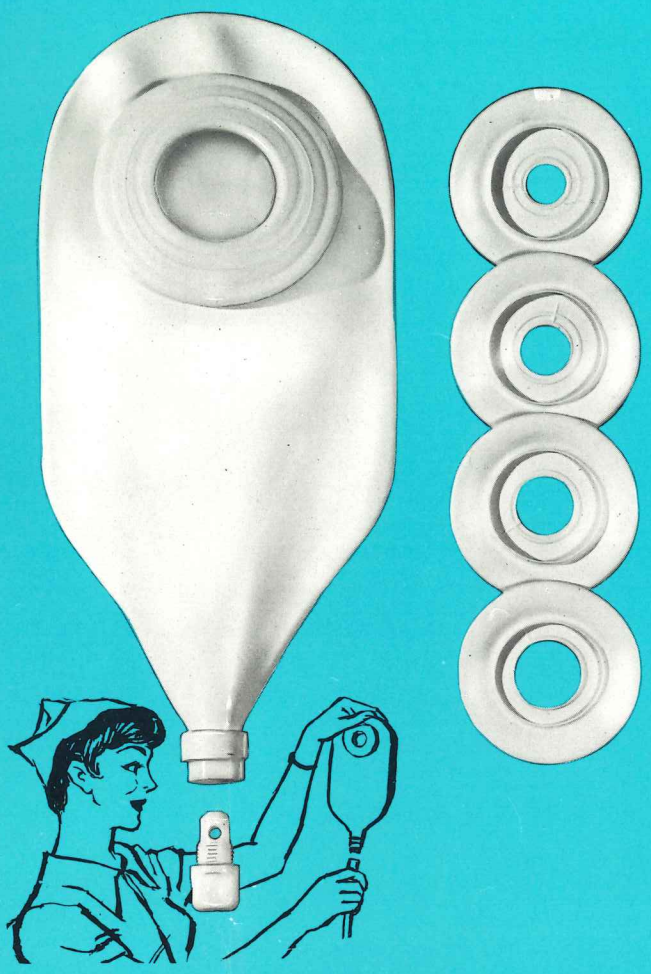
No. 990. Lower production costs permit the patient to save through use of the Economy Model Drains. The stoma opening is punched through the adhesive, but not through the plastic. The patient may cut out the proper hole size by following the ring size printed on the label. A starting hole size of ½ inch is provided.

A non-irritating, transparent adhesive is used permitting observation of the skin around the stoma. Marsan "Klear Seal" Drains are packaged 10 Drains per pkg., and 10 pkgs. per box. Two rubber closures are included with each package.

No. 950

No. 960

Economy Model
No. 990



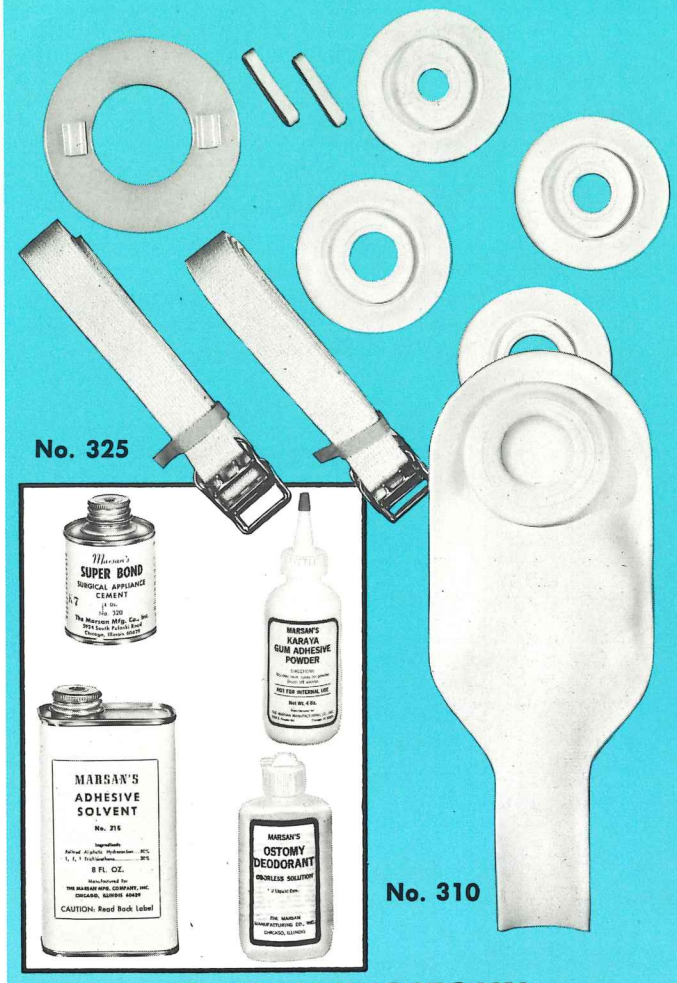
MARSAN URETEROSTOMY ILEAL BLADDER SET

A versatile appliance that may be used for the new Ileal-Bladder operation, or the cutaneous Ureterostomy surgical technique. Designed with the patient in mind. This new lightweight pouch will fit the majority of patients. Each set comes equipped with four different size shields so that fitting is no longer a problem.

The pouch may be emptied while on the patient, by means of a special outlet valve. An adapter for connecting a night drainage tube is also included. Made of one piece construction with no seams to leak. The pouch may be turned inside out for thorough cleansing. The convexity of the face plate may be increased or decreased by moulding with the fingers, thus insuring a better fit around the stoma.

No. 350,
Marsan Ureterostomy-Ileal Bladder Set contains:

No. 351 Pouch with face plate and outlet valve
No. 305 Latex Shields: ½", ⅝", ¾", ⅞" opening
No. 320 Super-Bond Cement
No. 325 2-Belts with buckles
No. 315 Marsan Adhesive Solvent
No. 800 Marsan "Ostomy" Deodorant, 2 oz.
No. 815 Karaya Gum Powder, 4 oz.
No. 856 Tubing Adapter
No. 857 Bedside Connecting Tube
No. 858 2-Bedside Drainage Bags
No. 350-P Pediatric size pouch available on request.



MARSAN ILEOSTOMY APPLIANCE SET

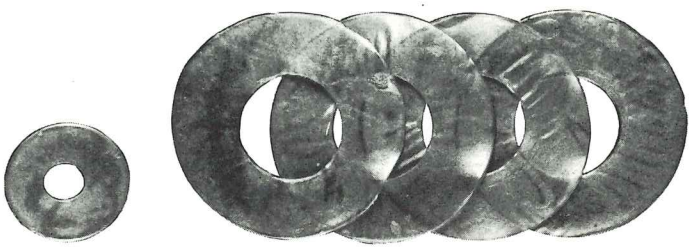
No. 300, Marsan new Ileostomy Appliance Set is highly recommended and approved by eminent physicians and surgeons as a product to protect you. Marsan Ileostomy Sets are made and designed to fit almost anyone, regardless of age or size.

The face plate is approximately 3 inches in diameter and convexed to fit the body. Comes equipped with a removable, pure gum rubber shield. In four sizes to assure close fit.

Pouches are available in two styles—side or center openings. Made of finest surgical latex, chemically treated for durability and comfort. No seams or joints to pull apart or leak; can be turned inside out for thorough cleaning. Pouch weighs about 2½ ounces: capacity approximately 500 cc.

No. 300, Marsan Ileostomy Set contains:

No. 310, 1 - Latex Ileostomy Pouch with Face Plate (center drain)
No. 305, 4 - Latex Shields: ½", ⅝", ¾", ⅞" opening
No. 325, 2 - Belts with buckles
No. 320, 1 - Super-Bond Cement
No. 315, 1 - Marsan Adhesive Solvent, 8 oz.
No. 330, 10 - Rubber "O" Rings
No. 800, 1 - Marsan "Ostomy" Deodorant, 2 oz.
No. 810, 1 - Karaya Gum Powder, 4 oz.
No. 300-V. Same as No. 300, except with 10 semi-permanent Vinyl Bags instead of 1 - Latex Pouch.



KARAYA GUM WASHERS

No. 328, used for preventing excoriation around ileostomy and colostomy stomas. Helps prevent leakage, permits longer, more comfortable wearing of appliance. 10 per package.

No. 328, Outside diameter 2". Stoma opening ½", ⅝", ¾", ⅞", 1" or 1½".

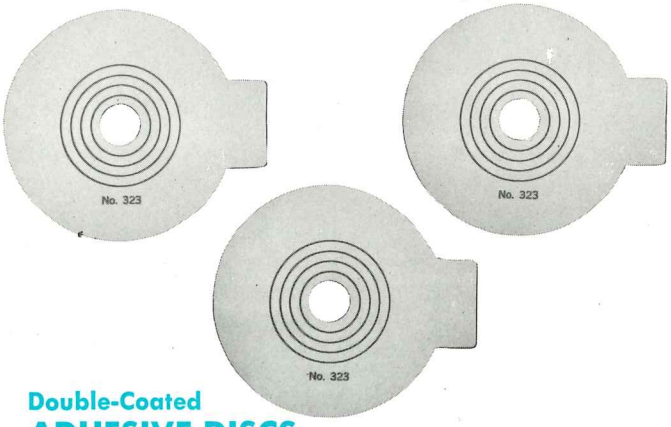
No. 328L, Outside diameter 4". Stoma opening 1½", 2", 2½" or 3".

Comfortable
FOAM RUBBER DISCS

Use as a protective, leakproof gasket between the appliance and the skin. Non-porous sponge rubber; acts as a cushion between appliance and the body.

May be applied to the appliance and to the skin with Marsan Super-Bond Cement, or Adhesive Discs. Easily removed with Adhesive Solvent. Available in 3" and 4" dia. discs, in ⅛" thickness. Opening may be easily enlarged with scissors.

No. 333, Marsan Foam Rubber Discs, 3" dia. (pkg. 10's)
No. 334, Marsan Foam Rubber Discs, 4" dia. (pkg. 10's)



Double-Coated
ADHESIVE DISCS

An extra-thin gasket coated on **both sides** with a super-bonding adhesive. Used in place of liquid adhesive for attaching the appliance to the body. Eliminates messy liquid cements; more convenient to handle. Easily removed with Marsan Adhesive Solvent.

No. 323, Marsan Adhesive Discs, 3" outside dia., ½" opening (pkg. 10's)
No. 324, Marsan Adhesive Discs, 4" outside dia., ½" opening (pkg. 10's)

MARSAN "OSTOMY" POUCH DEODORANT

No. 800, Odorless liquid Deodorant. Does not cover up odor, but controls odor-producing bacteria on contact. Available in squeeze type droplet bottles.

No. 800, Squeeze Bottle, 2 oz.
No. 802, Squeeze Bottle, 8 oz.

MARSAN "OSTOMY" POWDER

No. 810, Karaya Gum Powder. A soothing powder used for covering sore, irritated skin around the stoma. For use with Marsan No. 100 and No. 900 series Pouches, or other post operative appliances.

No. 810, Squeeze bottle, 4 oz.
No. 812, Economy jar, 16 oz.

MARSAN TINCTURE OF BENZOIN

(Aerosol Spray) 6 oz.

No. 815. Provides a protective film over colostomy areas. Ideal for preventing excoriation around stomas and to assure adherence of cement-on type appliances.

MARSAN SAF-T-POUCH ADHESIVE GASKETS

No. 805, Marsan ADHESIVE Gasket (adhesive on 2 sides). Used for sealing appliance to body to restrict odors and prevent leaking of fluids. Adds to the comfort and security of the patient. Use the adhesive gasket with Marsan No. 100, Saf-T-Pouch when necessary.

Size openings: 1", 1½", 2", 2½" and 3". Please state size when ordering. 10 gaskets per package.

EFFECTIVE JUNE 1, 1969

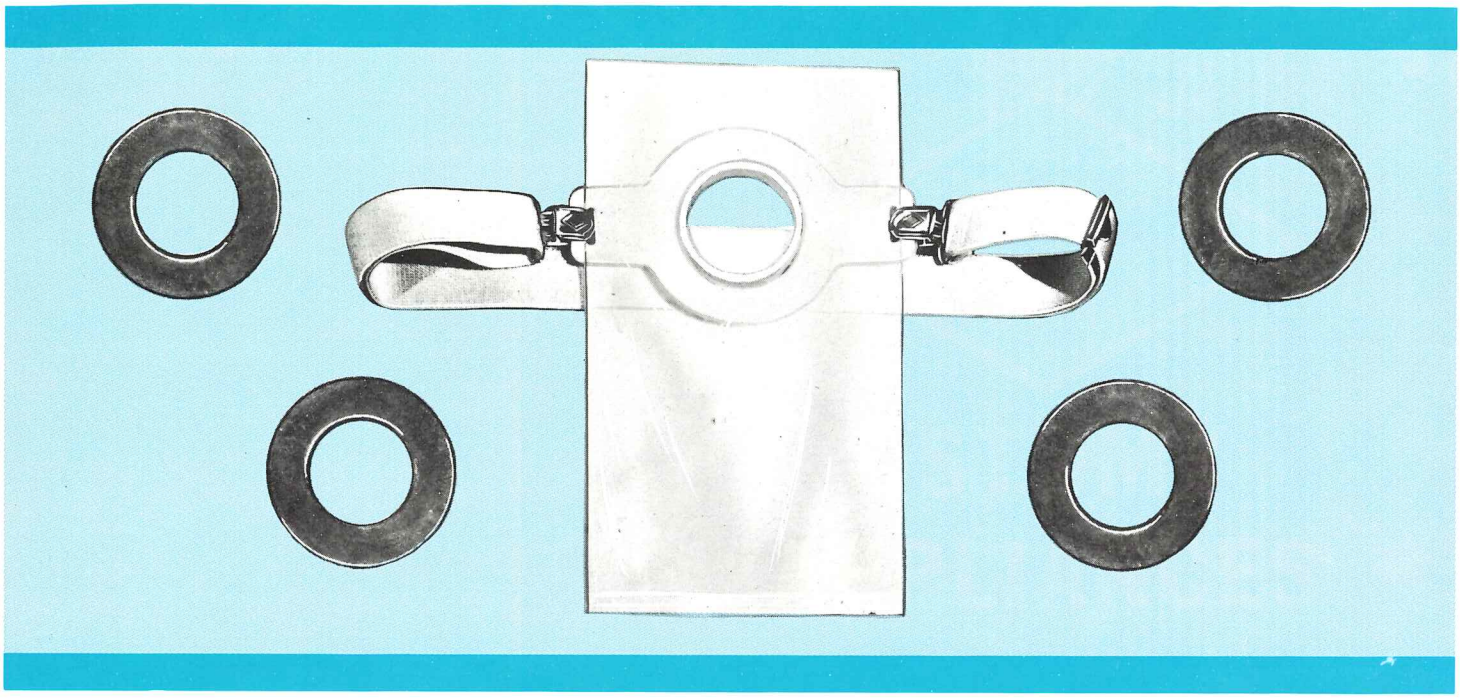
MARSAN

SURGICAL APPLIANCE Est. 1942

Introduces The New 100-K

Saf-T-Pouch Hospital Set With Karaya Washers



New! Marsan's Saf-T-Pouch Hospital Set 100-K with Karaya Washers!

In order to provide extra protection for the colostomy patient in the important post-operative period, Marsan Mfg. Company has added four Karaya Gum Washers to the Saf-T-Pouch Hospital Set.

The Karaya Gum Washers provide additional security and protection from excoriation and leakage. The washers are separate from the Saf-T-Pouch and remain on the body while the pouch is being changed. This prevents injury to the tender area around the stoma and eliminates the cost of replacing the washer each time the pouch is changed.

To apply, simply moisten the Karaya Gum Washer lightly with water and place on the body around the stoma. The Saf-T-Pouch is then applied over the washer and securely fastened by the snap-jaw elastic belt. Removal of the washer may be easily accomplished by washing the area with water as the Karaya Gum Washer is completely water soluble.

Product 100-K consists of the following:

1 – 1" wide elastic belt with snap-jaws
1 – plastic reinforcement gasket
4 – Karaya Gum Washers
50 – disposable single service Saf-T-Pouches

Karaya Gum Washers and Saf-T-Pouches are available in the following stoma sizes - 1", 1½", 2", 2½", 3" - please state size when ordering.

List price per set, $8.85

To order Product 100-K or to obtain further details, contact Marsan, or your distributor.
